

Mouse Monoclonal Antibody to TEC

Order Information		
Catalog#	20380	
Size/Concentration	100µl	50µl
Price(¥)	2180	1280

Description

TEC, it belongs to the Tec family of non-receptor protein-tyrosine kinases containing a pleckstrin homology domain. Tec family kinases are involved in the intracellular signaling mechanisms of cytokine receptors, lymphocyte surface antigens, heterotrimeric G-protein coupled receptors, and integrin molecules. They are also key players in the regulation of the immune functions. Tec kinase is an integral component of T cell signaling and has a distinct role in T cell activation. This gene may be associated with myelodysplastic syndrome.

Specification

Aliases : PSCTK4

Entrez GeneID : 7006

Swissprot : P42680

clone : 3A5

WB Predicted band size : 74kDa

Host/Isotype : Mouse IgG1

Storage : Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.

Species Reactivity : Human

Immunogen : Purified recombinant fragment of TEC expressed in E. Coli.

Formulation : Ascitic fluid containing 0.03% sodium azide.

Application

1/10000

ELISA
